About Yelena Yahontova: *Photographer of Joy*

Ms. Yahontova offers a poetic, imaginative alternative to the formal, posed portrait. She captures the uniqueness of each individual and the tenderness between family members. As a result, her portraits emanate joy and warmth. Also, because Yelena believes that each person is a miracle, her photo sessions celebrate and glorify her clients for who they are. Most of her sessions take place in nature or at her clients' homes where they feel comfortable. With the use of her costume collection, her talent and her imagination, Yelena transforms women into goddesses, children into princes and princesses; and above all, she creates portraits to admire and cherish forever.

Testimonials from Yelena's clients:

"Yelena is a gifted photographer who creates ART not just photos. Her enthusiasm and talent shine through her work." Kathy J. , teacher, MCCSC Adult Education, ESL Program, Bloomington, IN

"Yelena's bright palette and strong sense of whimsy combine to create a bright and appealing style of portraiture." Mark Harrison, University Educator, Bloomington, IN

"Yelena has a great imagination, and her artistic talent is unmatched. No matter what the complication was, she was easily able to overcome it. She turned what had always been a stressful time, into a fun and exciting experience. My children love her, and even my husband, who hates picture time, had to admit that he had fun too. I can't recommend Yelena enough! If you are wanting original, unique, beautiful pictures that will be cherished by your family, friends, and yourself forever, you want Yelena." Cindy Haverfield ( Cough ), Merchandiser / Business Owner, Bloomington, IN
